DETAILED ACTION

Allowance

Claims 1-10, 12 and 15-24 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest, singularly or in combination, at least the limitations of a reflective filling compound provided between the semiconductor arrangement and the inner side of the basic housing, wherein the reflective filling material is not only "concave" but also extending from the inner side of the basic housing to "a top edge of the carrier". The above limitation is not addressed by Harrah in view of Komoto and further in view of Salam because none of them suggest modification of the reflective filling material so that it extends to "a top edge of the carrier" (in conjunction with the other limitations of the claim) or the corresponding motivation for such a modification. It is noted that above feature of reflective filling material extending to "a top edge of the carrier" is taught by Ruhnau (US 6,900,511). However, US 6,900,511 has the same assignee (Osram Opto Semiconductors GmbH) and was filed on June 27, 2003. The MPEP states that "Subject matter developed by another person, which qualifies as prior art only under one or more of subsections (e), (f), and (g) of section 102 of this title shall not preclude patentability under this section where the subject matter and the claimed

invention were, at the time the claimed invention was made. Thus, Ruhnau, which is prior art under 35 USC 102 (e) and because both Ruhnau and the present application were assigned to Osram Opto Semiconductors GmbH at the time the claimed invention was made, Ruhnau cannot be used in an obviousness rejection under 35 USC 103 (c.).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
